

Employment per capita by AI exposure and job dimensionality (October 2022 = 1)

22-25 26-30 31-34 35-40 41-49 50+

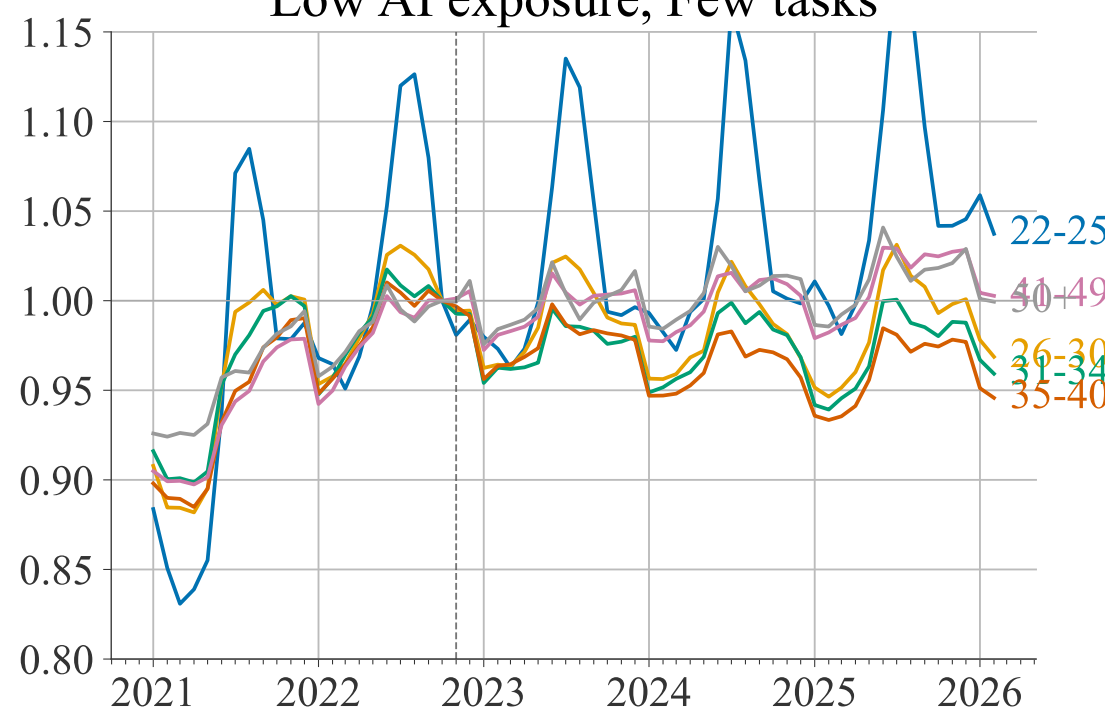

High AI exposure, Few tasks

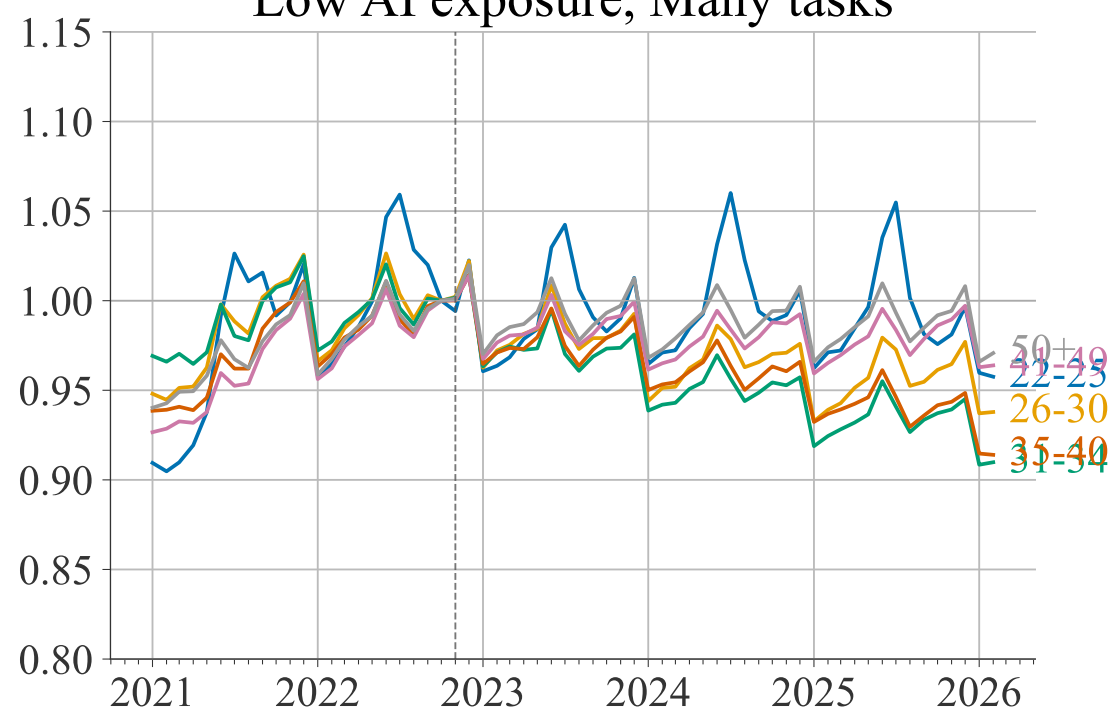

High AI exposure, Many tasks

Low AI exposure, Few tasks

Low AI exposure, Many tasks

Notes: Employment per capita (SSB table 07459) with composition adjustment (ref: 2021-Q1), normalized to October 2022 = 1. Dashed line marks ChatGPT launch (November 2022). AI exposure: Eloundou et al. (2024) GPT-4 beta, median split. Dimensionality: O*NET task count per occupation, median split (22 tasks). Residual SOC categories excluded. O-ring prediction (Gans & Goldfarb 2025; Imas & Shukla 2026): decline concentrates in top-left panel.
